

## Renewal of Management System Certification

---

Nezbec Fruit Co. is pleased to confirm the successful renewal of its internal management system certification (NF-QMS) for the principal operating facility.

The renewal follows a comprehensive review conducted in accordance with the company's established audit framework. All operational divisions were assessed against the current NF-QMS standard, with particular attention to process documentation, quality assurance protocols, and compliance with internal benchmarks.

Key areas reviewed include: resource management procedures, distribution chain integrity, documentation and records management, personnel qualification standards, and continuous improvement mechanisms.

The renewed certification is effective immediately and remains valid until the next scheduled review cycle. Copies of the certification summary are available to authorized partners upon written request to the General Affairs Department.

The company remains committed to maintaining the highest standards of operational integrity across all divisions and affiliated entities.
